Cosmic Relationships

Exploring the Soul's Journey from Off-Earth, Earth Lives, and Reincarnation

Evelyn Fuqua Ph.D.

In a uniquely personal approach to understanding human relationships, Dr. Fuqua explores the past lives of herself and her four husbands. She seeks to give credence to her belief that there is no conflict between evolution and creationism. Fuqua traces souls from the time they are birthed by the Godhead through their long evolutionary path to the Earth. She follows her late husband, an Air Force Colonel, after his death into the other realms and finally his decision to be reborn in Libya in order to help in the transition of that country. This is fascinating, groundbreaking research that Dr. Fuqua sincerely hopes will help humankind move into a higher vibration.

Through two channels, Dr. Franklin Loehr of the Church of Religious Research and Athor, an aspect of one of the members of the Council of Twelve on the etheric plane of the star system Sirius, Dr. Fuqua received in-depth past life readings regarding the souls of her husbands as well as herself. These readings cover a period from 1974 through 2011.

A particularly fascinating section of the

readings covers numerous existences of non-human forms long before the souls began incarnations here on Earth. These may seem like science fiction, but since Athor conducted hundreds of readings for Fuqua's psychotherapy clients that describe their soul's journey before coming to Earth, Fuqua is convinced that these readings are good evidence of the evolution of the soul. The book also gives credence to the concept that God (All That Is) creates souls; therefore, there is no conflict between the two theories of evolution and creationism.

The underlying theme of *Cosmic Relationships* is a love story between Evelyn and her husbands. Part of this love story is also a love of the Planet Earth and the desire to help the Earth evolve in the most positive way possible during this year of 2012. Evelyn and her mate Paul share their message from Athor for the assistance of the Beings of Light and all humankind who wish to participate in this process.

WHAT THE CRITICS ARE SAYING:

"Dr. Fuqua presents an insightful and compelling look at how past lives may influence our relationships, our spiritual growth, and evolution of the soul. A fascinating read."

~ Linda Pendleton - Author of *To Dance With Angels* and *Three Principles of Angelic Wisdom*

"Dr. Fuqua is to be commended for her scientific tenacity as an "explorer" as well as her spiritual veracity as an "explainer". She demonstrates courage, curiosity, compassion, and competence in her professional service and in her personal relationships."

~ Leo Sprinkle Ph.D. - Professor Emeritus, University of Wyoming – Author of *Soul Samples: Personal Explorations in Reincarnation and UFO Experiences*

"In this very readable presentation of a traditionally taboo subject, at least for Western belief systems, the concept of "past lives" is handled with intellectual preciseness yet remains accessible to the layman. Dr. Fuqua's depth of honesty, personal experience and credentials convince even the skeptic of the realities of past lives and their essential role in our current human relationships. Building on the works of Edgar Cayce and Dr. Franklin Loehr, this amazing book provides generous new information, and truly cosmic perspectives directly from those in a position to know. *Cosmic Relationships* is undoubtedly a necessary addition and clarification to our body of knowledge about this sometimes controversial and often baffling topic."

~ Michael Phelan - Author of *Why You Should CARE: What Happens When You Do*
